### The Queensland flood crisis

As the journey to rebuild the areas devastated by the recent Queensland floods continues we are thankful that despite the close calls all our people are safe and our site has been undamaged.

We are currently working with Foodbank in response to their request to provide food to flood victims across Queensland and to date have donated over \$400,000 worth of product including food and beverage and pet food. In addition to this we are donating \$100,000 directly to the Premier's Disaster Relief Appeal in Queensland which takes our total contribution to the relief efforts to over \$519,000.

This will be a prolonged challenge and we will continue to monitor the situation and stay in touch with relief organisations to provide appropriate support.

Our thoughts are with all our employees and extend to Queenslanders who have been affected both personally and professionally by the floods as they continue on the road to repair and recovery.

Ends
